MAKING THEM AMERICANS

How few of us realize the importance of making over the foreigner—of implanting American ideals, ideas and common sense in place of socialistic and maybe anarchistic theories. It means a lot to every American citizen. This work and many other interesting activities of the Department of Labor are discussed in the twelfth issue of the series of beautifully illustrated booklets on Our Government which we have been distributing to representative citizens of this community.

If by any chance you have failed to receive regularly your copies of this series that has been so favorably commented upon, visit us today and from the limited supply on hand we will gladly complete your set.

Lucian Woodson In Jail Charged With Heinous Crime

Tuesday Officers went to the home of Lucian Woodson, who lives near Reedy Spring church, and arrested him and brought him here and he is now locked in jail awaiting the action of the grandjury. The complaint against him is rape perpetrated on his own 16 year-old daughter and was lodged against him by his wife. His illicit relations are reported to have begun more than two years ago. If the charges be proved up it will equal the darkest criminal chapter ever enacted in Appomattox county The man is white and about 55 years of age, and apparently of sound mind.

War On Rats

I have been asked to act as chairman of the campaign in Appomattox county. Realizing the amount of property that the rat destroyes and that he is a great carrier of diseases, the banks of the county and the Board of Supervisors are heartily co-operating in this movement to exterminate the rats. The Board of Supervisors has appropriated $50 00 to finance this project and the Banks are offering attractive prizes for the largest number of rat tails turned in at the end of the campaign

You may be interested to know that the rats destroy property annually in Virginia worth over $4,000 000, and that they destroy in the county of Appomattox in the same length of time over $20,000 worth of property.

There are many methods of destroying rats, but the cheapest, safest, and most economical method has been found to be by the use of Barium Carbonate, which substance the Board of Supervisors has agreed to furnish to every person who will use it. Barium Carbonate is the least toxic of any of the poisons that could be used and is relatively safe, but every precaution must be taken to safeguard children and irresponsible persons. Very little complaint is reported from rats dying in the walls following the use of this poison Instructions how to use Barium Carbonate will accompany each package.

Our method of distributing the Barium Carbonate will be as follows: Merchants all over the county will be furnished with the material and have been asked to give it to all persons without cost, who apply for it. You can get the material from any of the following merchants: All the merchants at Appomattox, J. A Mann, W. R. Reynolds, J. E Martin, J. I. Moore, Mrs Lila Marks, J. W. Neighbors, W. E. Dickerson, J. R. Hamilton, Dixon & Marks, R W. Abbitt, J. Thos. Hix, W T. Nash, Herbert Lee, H. T Terry, J P. Scruggs and Mrs. Isabella Turner.

For the largest number of rats destroyed on the premises of one owner and their tails delivered to the Appomattox Hardware Co., on or before Jan. 29th, the following prizes are offered: First $10, second $3, third $2 and five one dollar prizes. Whether you compete for these prizes or not I earnestly request that you notify me by the 29 h the number of rats that were killed on your place
